

# Changes in My Family Timeline

Think about important changes that have happened in your family.  
Write or draw each change on the timeline and how you felt then and how you feel now.

What happened? (Write or draw)	What happened? (Write or draw)	What happened? (Write or draw)	What happened? (Write or draw)	What happened? (Write or draw)
-----------------------------------	-----------------------------------	-----------------------------------	-----------------------------------	-----------------------------------

How I felt then: (Write or draw)	How I felt then: (Write or draw)	How I felt then: (Write or draw)	How I felt then: (Write or draw)	How I felt then: (Write or draw)
-------------------------------------	-------------------------------------	-------------------------------------	-------------------------------------	-------------------------------------

How I feel now: (Write or draw)	How I feel now: (Write or draw)	How I feel now: (Write or draw)	How I feel now: (Write or draw)	How I feel now: (Write or draw)
------------------------------------	------------------------------------	------------------------------------	------------------------------------	------------------------------------

Other thoughts:  
(Write or draw anything else you want to share.)
